

NOTICE OF ASBESTOS COMPLIANCE

August 18, 2015

Dear Students, Parents, Staff, and Organizations:

School District 27-J, through this notice, is seeking to comply with the Asbestos Hazard Emergency Response Act or A.H.E.R.A., as it is commonly known.

All schools have been inspected for the presence of asbestos-containing building materials (ACBM).

Every three years, the District is required by law to have the asbestos in our facilities monitored and examined by a State approved inspection company. The tri-annual re-inspection summaries reassure us that our facilities do provide a safe environment for our students and staff.

It is the intention of School District 27-J to comply with all federal and state regulations controlling asbestos and to take whatever steps are necessary to ensure students and employees a healthy and safe environment in which to learn and work. You are welcome to review a copy of the asbestos management plan in school district administrative office or administrative office of the school during regular business hours.

Additional concerns and questions may be sent to:

Flora Aguirre-Diaz, Facilities Manager
