

# 27J Bond Program Update

## Ribbon cuttings Jan. 10 at Overland Trail & Northeast

To celebrate the completion of expansion and renovation projects at two 27J Schools, a community event is planned for Jan. 10 at 4 p.m. and 6 p.m. Additions have been built at Overland Trail Middle School (left) and at Northeast Elementary School (right.)

The expansion and renovation projects at Northeast Elementary and Overland Trail Middle schools are almost complete.

To celebrate, the community is invited to ribbon cuttings at both schools on Thursday, Jan. 10.

At Northeast School, a ribbon cutting will be at 4 p.m.

At Overland Trail Middle School, a ribbon cutting will be in the school's gym at 6 p.m. that day.

A four-classroom addition was built as a new Kindergarten wing at Northeast Elementary school.

At Overland Trail Middle School, an addition with 949-sq.-ft. was built on the front.

Both schools had new carpet, paint and lighting installed and new furniture was put in.

An outdoor classroom and a trail linking the schools will be used by students in both schools.

## Quist Middle gets temporary roof

A temporary roof was put on the classroom wing (top) at Quist Middle School last month for crews to be able to work more efficiently through winter. Steele construction work is completed in several areas of the school (middle), and the gym (above) is being built.

## Energy rebates presented to 27J

A check in the amount of \$63,350 was presented by United Power to the 27J Board of Education on Nov. 13 for LED lighting rebates. The rebates were for high school field lighting at Brighton High and Prairie View High.

John Parker and Tom Green of United Power presented the check to Board President Roberta Thimmig.

## New furniture goes into eight schools

A second phase of the Furniture Initiative, which is Bond funded, will have new furniture being delivered over winter break to: Thimmig, West Ridge, Second Creek, Pennock and Turnberry Elementaries, Stuart, Prairie View Middle and Prairie View High.
